## LOCATION Table Design v5.6

| Field Name | Description   | Data Type | Field Size   |
|------------|---|-----------|--------------|
| LOCID      | The unique identifier of the location.  | Number    | Long Integer |
| LTYPE      | Specifies the type Location E.g., Country, Province or Nursery test site. Links to types defined in the UDFLDS table  | Number    | Integer      |
| NLLP       | Number of LAT-LONG points in the polygon describing the Location. Zero if no LAT-LONG   | Number    | Integer      |
| LNAME      | Preferred name of the location<br>This may be a standardised name, such as from a digital gazetteer, or a coded name such as BUR010, or a text description, such as “2km E of Los Baños”.<br>Note that there is no requirement to assign a name to an unnamed location; an unnamed location may instead be identified by its latitude-longitude and/or altitude coordinates (in table GEOREF) and/or the country and subnat divisions in which it is located. | Text      | 60           |
| LABBR      | Preferred abbreviated name of the location  | Text      | 8            |
| SNL3ID     | Name of third level of political subdivision within country (e.g. Vereda).  | Number    | Long Integer |
| SNL2ID     | Name of second level of political subdivision within country (e.g. District)  | Number    | Long Integer |

|         |   |        |              |
|---------|---|--------|--------------|
| SNL1ID  | Name of first level of political subdivision within country (e.g. State, Province Department)   | Number | Long Integer |
| CNTRYID | LOCID of the country location entry in this table to which this current location entry belongs.   | Number | Long Integer |
| LRPLCE  | Own LOCID for deletion, replacement LOCID for replaced records, zero otherwise  | Number | Long Integer |
| NNPID   | LOCID of the nearest named place. Typically to be used for a location where LNAME is a text description of the locality, and NNPID points to the village closest to that locality. For the purposes of data curation, note the conceptual difference: SNL*ID describe the hierarchy of administrative units within which the location occurs: whereas NNPID refers to the nearest named place. NNPID is thus not necessarily within SNL*ID. | Number | Long Integer |

## UDFLDS Table Entries v5.6

### LOCATION

| FLDNO | FTABLE   | FTYPE | FCODE   | FNAME                                      | FDESC |
|-------|----------|-------|---------|--|-------|
| 401   | LOCATION | LTYPE | CONT    | CONTINENT                                  | -     |
| 402   | LOCATION | LTYPE | GREGN   | GEOGRAPHICAL REGION                        | -     |
| 403   | LOCATION | LTYPE | PREGN   | GEOPOLITICAL REGION                        | -     |
| 404   | LOCATION | LTYPE | EREGN   | ECOLOGICAL REGION                          | -     |
| 405   | LOCATION | LTYPE | COUNTRY | COUNTRY                                    | -     |
| 406   | LOCATION | LTYPE | PROV    | FIRST SUB-NATIONAL DIVISION                | -     |
| 407   | LOCATION | LTYPE | DIST    | SECOND SUB-NATIONAL DIVISION               | -     |
| 408   | LOCATION | LTYPE | MUN     | THIRD SUB-NATIONAL DIVISION                | -     |
| 409   | LOCATION | LTYPE | COLL    | GERMPLASM COLLECTION SITE                  | -     |
| 410   | LOCATION | LTYPE | BREED   | BREEDING LOCATION                          | -     |
| 411   | LOCATION | LTYPE | IARC    | INTERNATIONAL AGRICULTURAL RESEARCH CENTER | -     |

|      |          |       |          |                                       |   |
|------|----------|-------|----------|---------------------------------------|---|
| 412  | LOCATION | LTYPE | NARC     | NATIONAL AGRICULTURAL RESEARCH CENTER | -   |
| 413  | LOCATION | LTYPE | POPPLACE | Populated place                       | Name of a populated place (city, town, village)   |
| 414  | LOCATION | LTYPE | COLLMISS | Collecting mission                    | Region covered by a collecting mission (This location type is necessary so that we can tie the NLocN of names of type COLLNO to their collecting mission) |
| 1401 | LOCATION | LTYPE | INGER    | INGER TEST SITE                       | -   |
| 1500 | LOCATION | LTYPE | SSTORE   | STORAGE OR SEED STOCK LOCATION        | -   |

## LOCDES

| FLDNO | FTABLE | FTYPE      | FCODE    | FNAME                         | FDESC   |
|-------|--------|------------|----------|-------------------------------|---|
| 301   | LOCDES | DESCRIPTOR | ALT      | ALTITUDE ABOVE SEA LEVEL      | ALTITUDE IN M ABOVE SEA LEVEL<br>RIGHT JUSTIFIED  |
| 302   | LOCDES | DESCRIPTOR | CHNLOC   | FULL LOCATION NAME IN CHINESE | INST:FULL INSTITUTION NAME IN CHINESE,SNL1: PRIMARY SUBNATIONAL DIVISION (PROVINCE), SNL2: SECONDARY SUB-NATIONAL DIVISION(CITY), SNL3: TERIARY SUB-NATIONAL DIVISION (COUNTY OR TOWN), CNTABB: COUNTRY ABBREVIATION                                    |
| 1324  | LOCDES | DESCRIPTOR | INGERLOC | INGER LOCATION NUMBER         | CNTY: INGER COUNTRY NUMBER; INST: OLD INSTITUTE CODE; INSTN: NEW INGER INSTITUTE NUMBER   |
| 1325  | LOCDES | DESCRIPTOR | CNTRY    | ISO COUNTRY DESCRIPTORS       | CCODE: COUNTRY CODE NUMBER, FAOCODE: FAO COUNTRY CODE NUMBER,ISOCODE: ISO COUNTRY CODE NUMBER,CC2: 2 LETTER COUNTRY CODE,TELEX: INT'L TELEX NUMBER,GEOR: GEOGRAPHIC REGION,ECOR: ECONOMIC REGION,WHR WHEAT REGION,MZR: MAIZE REGION,CNAME: LONG COUNTRY |

|     |        |       |          |                        | NAME   |
|-----|--------|-------|----------|------------------------|--|
| 303 | LOCDES | DTYPE | ORIGINAL | Original location data | Data as originally provided, without validation, in format \"Field1=value; Field2=value...\" |
| 304 | LOCDES | DTYPE | LLANTN   | LAT-LONG ANNOTATION    | Annotation of lat-long coordinates including georeferencing                                  |
| 305 | LOCDES | DTYPE | LOCANTN  | LOCATION ANNOTATION    | Annotation on interpretation of original text location data                                  |

## Legend:

|               |  |
|---------------|--|
| (gray cell)   | Already existing field/entry                   |
| (yellow cell) | New field/entry to be added                    |
| (gold cell)   | Replace existing entry with this new code/size |
| (light blue)  | Modified/enhanced description                  |

## Notes:

LOCATION: data about a location of any kind - named or unnamed place, a political entity, geographical entity or feature from continent down to a building or a locality with a text description (not address) of how to find it. It may even have no name or description at all, if referenced only by lat/long coordinates in GEOREF.
