New PERSONLIST Table Design (introduced in v5.6)

Field Name	Description	Data Type	Field Size
PERSONLISTID	Id of list of persons	Integer	2
OWNERTAB	Table the list of persons is related to. PROJECT, STUDY, LIST, BIBREFS, etc.	Text	40
OWNERREC	Owner of the list of persons; Link to specific record in table specified in OWNERTAB	Long	4
SORTORDER	Sort order for person in the list	Integer	2
PERSONID	Person entry in the list; Link to PERSONID in PERSONS table	Long	4
PERSONNAME	Full Name of Person (convenience: composite of entries in PERSONS table). Format should be "Surname, Firstname". E.g. "Smith, John"	Text	64
PLISTSTATUS	Status of the list (valid values: 1=Active, 0=Folder, 9=Deleted)	Integer	2

Notes

- OWNERREC (with OWNERTAB=PROJECT) can point to the project ID in the PROJECT table (for Project Teams, Collecting Missions, Co-PI's, etc.)
- PERSONLIST table is generalized to hold lists of PERSONS for other ICIS table types. Examples: list of persons associated with...
 - a publication/BIBREFS record
 - a study
